

## Sample specification

Tender text: "Injection hose"

Item	Quantity	Specification	Total price
1 a	m	<p>Deliver above-mentioned Rifutec injection hose used for subsequent sealing of construction joints in the</p> <p style="text-align: center;"><b>floor slab</b></p> <p>and install it correctly according to the manufacturer's instructions. The price is to include the necessary shutter connectors and fixing materials . Costing is calculated using the length of the corresponding construction joint based on the component axes.</p> <p style="text-align: center;">price per lin. m _____</p>	
1 b	m	<p>Deliver above-mentioned Rifutec injection hose used for subsequent sealing of construction joints at the</p> <p style="text-align: center;"><b>base / wall transition</b></p> <p>and install it correctly according to the manufacturer's instructions. Further details as described in item 1 a.</p> <p style="text-align: center;">price per lin. m _____</p>	
1 c	m	<p>Deliver above-mentioned Rifutec injection hose used for subsequent sealing of construction joints in</p> <p style="text-align: center;"><b>wall / wall connections</b></p> <p>and install it correctly according to the manufacturer's instructions. Further details as described in item 1 a.</p> <p style="text-align: center;">price per lin. m _____</p>	
1 d	m	<p>Deliver above-mentioned Rifutec injection hose used for subsequent sealing of construction joints in</p> <p style="text-align: center;"><b>diaphragm walls / foundations</b></p> <p>and install it correctly according to the manufacturer's instructions. Further details as described in item 1 a.</p> <p style="text-align: center;">price per lin. m _____</p>	
1 e	m	<p>Deliver above-mentioned Rifutec injection hose used for subsequent sealing of</p> <p style="text-align: center;"><b>pipe leadthroughs</b></p> <p>etc. in concrete walls and install it correctly according to the manufacturer's instructions. Further details as described in item 1 a.</p> <p style="text-align: center;">price per lin. m _____</p>	

Item	Quantity	Specification	Total price
2	m	<p>Carry out injection work with PUR resin and/or acrylic resin according to the manufacturer's instructions at the latest possible time, after concrete shrinkage and construction settlement have taken place to a large extent. The price is to include provision of suitable trained personnel, injection devices including accessories and a resin consumption of 0.1 kg/m. Costing is calculated using the length of the corresponding construction joint based on the component axes.</p> <p>price per lin. m _____</p>	
3	m	<p>Repeated injection - Carry out injection work with acrylic resin according to the manufacturer's instructions at the latest possible time, after concrete shrinkage and construction settlement have taken place to a large extent. Empty and flush the hose after injection, so that it can be reused if required. The price is to include provision of suitable trained personnel, injection devices including accessories and a resin consumption of 0.1 kg/m. Costing is calculated using the length of the corresponding construction joint based on the component axes.</p> <p>price per lin. m _____</p>	
4		<p>Carry out injection work with cement suspension according to the manufacturer's instructions at the latest possible time, after concrete shrinkage and construction settlement have taken place to a large extent. The price is to include provision of suitable trained personnel, injection devices including accessories and a cement consumption of 0.5 kg/m. Costing is calculated using the length of the sealed void, based on the component axes.</p> <p>price per lin. m _____</p>	
5	kg	<p>Surcharge to item 2 and 3 for extra consumption of PUR resin or acrylic resin</p> <p>price per lin. m _____</p>	
6	kg	<p>Surcharge to item 2 If used in drinking water storage, above-mentioned TW PUR resin must be used. A relevant injection report for the drinking water suitability of the resin must be provided.</p> <p>price per lin. m _____</p>	
7	m	<p>Sealing the joint in accordance with the site requirements</p> <p>price per lin. m _____</p>
